ETHICS COMMITTEE (SEC)

NOTIFICATION FORM FOR LOW-RISK PROJECTS AT UNDERGRADUATE OR TAUGHT MASTERS LEVELS

<u>**Please read the following information carefully before completing your application. Failure to adhere to these guidelines will make your submission ineligible for review.**</u>

1. **Download this form, complete the appropriate fields, attach additional pages (e.g. plain language statement) as appropriate and save as a PDF file**

2. **Completed applications must be uploaded to your School of Computing GitLab repo, and must be located in "`docs/ethics.pdf`".**

3. **Your SUPERVISOR will then be notified automatically and must approve your approach initially.**

4. **Your application should consist of <u>one electronic file (PDF) only</u>.** The completed application must include this form and also must incorporate all supplementary documentation, especially that being given to the proposed participants e.g consent forms, plain English language statement. It must be proofread and spell-checked before submission**.**

5. **All sections of the application form must be answered as instructed and within the word limits given.**

6. **Your ethics approval submission will be circulated to the School's Research Ethics Committee and you will be notified if/when it is approved**

7. **All projects must have either a derogation from an ethics approval requirement (as determined by your supervisor) OR must have an approved ethics submission (this form), before work with human subjects commences.**

Applications which do not adhere to these requirements will not be accepted for review and will require resubmission

Applications must be completed on this form; answers in the form of attachments will not be accepted, except where indicated. No hard copy applications will be accepted. **The project <u>must not</u> commence work with human subjects until written approval has been received from the School of Computing Ethics Committee (SEC).**

DECLARATION BY SUPERVISOR(S)

The information contained herein is, to the best of my knowledge and belief, accurate. I have read the University's current research ethics guidelines, and accept responsibility for the conduct of the procedures set out in the attached application in accordance with the form guidelines, the SCEC guidelines (https://www.dcu.ie/researchsupport/researchethics.shtml), the University's policy on Conflict of Interest, Code of Good Research Practice and any other condition laid down by the Dublin City University Research Ethics Committee. I have attempted to identify all risks related to the research that may arise in conducting this research and acknowledge my obligations and the rights of the participants.

If there exists any affiliation or financial interest for researcher(s) in this research or its outcomes or any other circumstances which might represent a perceived, potential or actual conflict of interest this should be declared in accordance with Dublin City University policy on Conflicts of Interest.

I and my co-investigators or supporting staff have the appropriate qualifications, experience and facilities to conduct the research set out in the attached application and to deal with any emergencies and contingencies related to the research that may arise.

2. PROJECT OUTLINE

2.1 SIMPLE DESCRIPTION *(Max. 300 words)*

Our research project is a mobile application using the social media platform Twitter and the online storage service Google Drive. The app will provide users with tools to access media uploaded to Google Drive & to Twitter respectively. The app will also provide users with means to create content that can then be published on both platforms and accessed on our own.

2.2 AIMS OF AND JUSTIFICATION FOR THE RESEARCH *(Max. 400 words)*

Twitter does not currently include a method of creating and accessing audio content. The aim of this project is to provide users with a service that can be a preferable means to create and access audio content on social media. We plan to expand the scope of tools available to users of both Google Drive and Twitter to navigate the content they are interested in and to listeners of audio based content such as podcasts and radio shows.

2.3 DESCRIBE THE METHODOLOGY BEING USED TO ACHIEVE YOUR STATED AIMS

Each member of the project team will give potential participants access to our mobile application. Participants can then use the tools available to them in our application to navigate through the social media and audio media they may wish to access. Upon conclusion of their engagement with the app, they will be asked to complete a questionnaire to gage their thoughts on the experience with the app. This will cover subjects such as navigating social media feeds and listening to audio content. Feedback received from the questionnaire will be used to improve the quality of the application.

2.4 PARTICIPANT PROFILE

The sample group of participants of any gender will be between the ages of 18 and 65 with varying experiences with mobile technology. We aim to have a sample size of at least 10 participants sourced from acquaintances, friends and family to provide feedback on our application.

2.4(a) **PARTICIPANT VULNERABILITY**
Are some or all of participants vulnerable in any way? (e.g by virtue of the group they belong to, people who have undergone traumatic or adverse emotional events, people with diminished cognitive ability, power relations between researchers and participants etc.)? If they are, state what this vulnerability (or vulnerabilities) is and justify why this research is being done with such participants.

N/A

2.4(b) **CHILD PARTICIPANTS (anyone under 18 years old)**
*If your participants include children, you **must** confirm that you are in compliance with the research specific guidelines as detailed in "Keeping Children Safe - Policies and Procedures supporting Child Protection at DCU" - available at:*
https://www4.dcu.ie/sites/default/files/policy/157%20-%20child_protection_handbook_rev1%282%29%281%29.pdf

Please indicate your compliance with the following guidelines:	**Mark here**
We confirm that we have read and agree to act in accordance with the DCU Child Protection policy and procedures	**N/A**
We confirm that we have put in place safeguards for the children participating in the research	**N/A**
We confirm that we have supports in place for children who may disclose current or historical abuse (whether or not this is the focus of the research)	**N/A**

2.5 **EXPLAIN HOW PARTICIPANTS ARE TO BE RECRUITED**
Please provide specific details as to how you will be recruiting participants. How will people be informed that you are doing this research? How will they be approached and asked if they are willing to participate? If you are mailing or phoning people, please explain how you have obtained their names and contact details. If a recruitment advertisement is to be used, please ensure you attach a copy to this application.

We will recruit participants via direct contact to acquaintances, friends and family members with the necessary mobile device to run the application.

2.6 **PLEASE EXPLAIN WHEN, HOW, WHERE, AND TO WHOM RESULTS WILL BE DISSEMINATED, INCLUDING WHETHER PARTICIPANTS WILL BE PROVIDED WITH ANY INFORMATION AS TO THE FINDINGS OR OUTCOMES OF THE PROJECT?**

As per DCU guidelines regarding examinable materials, the data can be made available to anyone with the necessary privileges to said data.

2.7 **ARE OTHER APPROVALS REQUIRED TO GAIN ACCESS TO ANOTHER LOCATION, ORGANISATION ETC.? (e.g. a School or company)**

YES or NO
NO

3.   RISK AND RISK MANAGEMENT

3.1   JUSTIFICATION OF STATED LEVEL OF RISK TO RESEARCH PARTICIPANTS

You must provide a justification for the stated level of risk, as indicated on the cover page of your application. Note that the level of risk may be influenced by the vulnerability of the research group, the methods employed and the nature of the research itself. For further information on risk levels, please refer to the Levels of Review information on the website: https://www.dcu.ie/researchsupport/researchethics.shtml

> The level of risk associated with participation with this project is low. Participants will only be asked for their opinions on their interaction with the given application, personal data will not be requested and their identities will be anonymous.

3.2   DOES THE RESEARCH INVOLVE:

	YES or NO
● use of a questionnaire? (attach copy)?	YES
● interviews (attach interview questions)?	NO
● observation of participants without their knowledge?	NO
● participant observation (provide details in section 2)?	NO
● audio- or video-taping interviewees or events?	NO
● access to personal and/or confidential data (including student, patient or client data) without the participant's specific consent?	NO
● administration of any stimuli, tasks, investigations or procedures which may be experienced by participants as physically or mentally painful, stressful or unpleasant during or after the research process?	NO
● performance of any acts which might diminish the self-esteem of participants or cause them to experience embarrassment, regret or depression?	NO
● investigation of participants involved in illegal activities?	NO
● procedures that involve deception of participants?	NO
● administration of any substance or agent?	NO
● use of non-treatment of placebo control conditions?	NO
● collection of body tissues or fluid samples?	NO
● collection and/or testing of DNA samples?	NO
● participation in a clinical trial?	NO
● administration of ionising radiation to participants?	NO

3.3   POTENTIAL RISKS TO PARTICIPANTS AND RISK MANAGEMENT PROCEDURES

Identify, as far as possible, all potential risks to participants (physical, psychological, social, legal, economic, etc.), associated with the proposed research. Please explain what risk management procedures will be put in place to minimise these risks.

No potential risks have been identified for participants' engagement with this study. .

3.4 ARE THERE LIKELY TO BE ANY BENEFITS (DIRECT OR INDIRECT) TO PARTICIPANTS FROM THIS RESEARCH?

YES or NO
NO

(If YES, provide details.)

3.5 ARE THERE ANY SPECIFIC RISKS TO RESEARCHERS?
Examples include use of dangerous materials, asking certain types of questions, research being undertaken in certain locations, researchers working alone in isolated areas, etc.

YES or NO
NO

(If YES, please describe and explain what risk management procedures will be put in place to minimise these risks.)

3.6 DEALING WITH ADVERSE/UNEXPECTED OUTCOMES
Please describe what measures/protocols you have put in place in the event that there are any unexpected outcomes or adverse effects to participants arising from involvement in the project.

Should any unexpected outcome arise the necessary DCU recommended policies will be implemented by the investigators.

3.7 HOW WILL THE CONDUCT OF THE PROJECT BE MONITORED?
Please explain how the supervisor will monitor the conduct of the project (especially where several people are involved in recruiting or interviewing, administering procedures, etc.) to ensure that it conforms with the procedures set out in this application

Our supervisor has signed his approval of our approach to the disclosed methods. He will also be available to discuss any situations regarding and resulting from this study.

3.8 SUPPORT FOR PARTICIPANTS
Depending on risks to participants you may need to consider having additional support for participants during/after the study. Consider whether your project would require additional support, e.g., external counselling available to participants. Please advise what support will be available.

N/A

3.9   DO YOU PROPOSE TO OFFER PAYMENTS OR INCENTIVES TO PARTICIPANTS?

YES or NO
NO

3.10   DO ANY OF THE RESEARCHERS ON THIS PROJECT HAVE A PERSONAL, PHILOSOPHICAL, FINANCIAL OR COMMERCIAL INTEREST IN ITS OUTCOME THAT MIGHT INFLUENCE THE INTEGRITY OF THE RESEARCH, OR BIAS THE CONDUCT OR REPORTING OF THE RESEARCH, OR UNDULY DELAY OR OTHERWISE AFFECT THEIR PUBLICATION?

YES or NO
NO

4.   CONFIDENTIALITY/ANONYMITY

4.1   WILL THE IDENTITY OF THE PARTICIPANTS BE PROTECTED?

YES or NO
YES

IF YOU ANSWERED YES TO 4.1, PLEASE ANSWER THE FOLLOWING QUESTIONS:

4.2   HOW WILL THE ANONYMITY OF THE PARTICIPANTS BE RESPECTED?
Please bear in mind that where the sample size is very small, it may be impossible to guarantee anonymity/confidentiality of participant identity. Participants involved in such projects need to be advised of this limitation in the Plain Language Statement/Information Sheet. If you intend to fully anonymize the data, please provide details

The questionnaire will be performed on the Google Forms platform where users can answer potential questions anonymously. Users will also be given a testing account to gain access to the necessary platforms.

4.3   LEGAL LIMITATIONS TO DATA CONFIDENTIALITY
Participants need to be made aware that confidentiality of information provided cannot always be guaranteed by researchers and can only be protected within the limitations of the law - i.e., it is possible for data to be subject to subpoena, freedom of information claim or mandated reporting by some professions. This information should be included in your Plain Language Statement and Informed Consent Form. Depending on the research proposal and academic discipline, you may need to state additional specific limitations.

State how and where participants will be informed of these limitations

As discussed in the consent form and plain language statement, the users data will remain confidential within the limitations of the law.

5.   PERSONAL DATA - COMPLIANCE WITH THE GENERAL DATA PROTECTION REGULATION

*Personal data is data relating to a living individual (i.e. the 'Data Subject') who is, or can be, identified either from the data itself or from the data in conjunction with other information that is in, or is likely to come into, the possession of the 'Data Controller' (i.e. DCU and its constituent units e.g. research teams etc.). **Further information on personal data is available from the DCU Data Protection Unit at https://www.dcu.ie/ocoo/dp/guides.shtml***

5.1   IS PERSONAL DATA BEING PROCESSED AS PART OF THIS PROJECT?

YES or NO
NO

If YES, Please indicate your compliance with the following guidelines:	**Mark here**
We confirm that we have read and agree to act in accordance with DCU Data Protection Unit guidance and procedures regarding personal data	
We confirm that we have put in place a Personal Data Security Schedule (PDSS) for the project and have attached it to this application	

Please see the GDPR and the Research Ethics Process section of the SCEC main webpage for guidance

IF YOU ANSWERED YES TO 5.1, PLEASE ANSWER THE FOLLOWING QUESTIONS:

5.2   WHAT KIND OF PERSONAL DATA IS BEING PROCESSED?
Note special categories of personal data include health data, genetic data and/or data relating to ethnicity/race of participants, their sex lives and/or sexual orientation

5.3   WILL ANONYMISATION/PSEUDONYMISATION OF THE PERSONAL DATA BE UNDERTAKEN?

YES or NO

(If NO, please explain why.)

<table>
<tr><td></td></tr>
</table>

6. DATA/SAMPLE STORAGE, SECURITY AND DISPOSAL

For the purpose of this section, "Data" includes that in a raw or processed state (e.g. interview audiotape, transcript or analysis). "Samples" include body fluids or tissue samples.

6.1 HOW AND WHERE WILL THE DATA/SAMPLES BE STORED?
Note that the SCEC recommends that all data be stored on campus – please justify any off-site storage.

The data garnered from the questionnaire will be stored on the DCU Google Apps services.

6.2 WHO WILL HAVE ACCESS TO DATA/SAMPLES?
If people other than the main researchers have access, please name who they are and explain for what purpose.

The data will only be accessed by the members of the project & their supervisor.

6.3 HOW LONG IS THE DATA TO BE HELD/RETAINED FOR?
*Note that with very few exceptions **personal data** may not be retained indefinitely. It is up to the unit or research team to establish an upper retention limit for each category of personal data under its control.*

The data gathered from the questionnaire will be stored until evaluation of the project is complete. Upon completion, this data and the questionnaire will be destroyed.

6.4 IF DATA/SAMPLES ARE TO BE DISPOSED OF, PLEASE EXPLAIN <u>HOW</u>, <u>WHEN</u> AND <u>BY WHOM</u> THIS WILL BE DONE?
*Note that simply deleting files is not sufficiently secure. The additional steps to be taken to maintain data security should be given. **Personal data** must be disposed of in a safe and secure manner at the end of its retention period. If the data is stored in a: a) paper based format then shredding or disposal via a secure bin is recommended; or b) if it is stored in an electronic based format then deletion of the record or full anonymization of the data is recommended.If data/samples are NOT being disposed of, please justify this decision.*

Following completion of the project, the questionnaire and its data will be deleted from the Google platform by the project investigators Eoin and Kieran.

7. PLAIN LANGUAGE STATEMENT *(Attach to this document. Approx. 400 words)*

A Plain Language Statement (PLS) should be used in all cases. This is written information in plain language that you will be providing to participants, outlining the nature of their involvement in the project and inviting their participation. The PLS should specifically describe what will be expected of participants, the risks and inconveniences for them, and other information relevant to their involvement. Please note that the language used must reflect the participant age group and corresponding comprehension level – if your participants have different comprehension levels (e.g. both adults and children) then separate forms should be prepared for each group. The PLS can be embedded in an email to which an online survey is attached, or handed/sent to individuals in advance of their consent being sought. See link to sample templates on the website:
https://www.dcu.ie/researchsupport/ethicsapproval.shtml

PLEASE CONFIRM WHETHER THE FOLLOWING ISSUES HAVE BEEN ADDRESSED IN YOUR PLAIN LANGUAGE STATEMENT/ INFORMATION SHEET FOR PARTICIPANTS:

	YES or NO
Introductory Statement (Supervisor and student names, school, title of the research)	YES

What is this research about?	YES
Why is this research being conducted?	YES
What will happen if the person decides to participate in the research study?	YES
How will their privacy be protected?	YES
How will the data be used and subsequently disposed of?	YES
What are the legal limitations to data confidentiality?	YES
What are the benefits of taking part in the research study (if any)?	YES
What are the risks of taking part in the research study?	YES
Confirmation that participants can change their mind at any stage and withdraw from the study	YES
How will participants find out what happens with the project?	NO
Contact details for further information (including SCEC contact details)	YES
Details relating to GDPR Compliance if Personal Data is being sought	NO

If any of these issues are marked NO, please justify their exclusion:

> There is no plan to update participants on the progress of the project. No personal data is being sought from participants of this questionnaire.

8.   INFORMED CONSENT FORM *(Attach to this document. Approx. 300 words)*

In most cases where interviews or focus groups are taking place, an Informed Consent Form is required. This is an important document requiring participants to indicate their consent to participate in the study, and give their signature. If your participants are minors (under 18), it is best practice to provide them with an assent form, while their parents/guardians will be given the Informed Consent Form. In cases where an anonymous questionnaire is being used, it is enough to include a tick box in the questionnaire (underneath the information section for participant), where participants can indicate their consent.
*See link to sample templates on the website: **https://www.dcu.ie/researchsupport/ethicsapproval.shtml***

NB – IF AN INFORMED CONSENT FORM IS NOT BEING USED, THE REASON FOR THIS MUST BE JUSTIFIED HERE.

Research Purpose

We are carrying out this research in order to gain an insight into the ease of use of our mobile application. The goal of the project is to provide a useful platform for creating and accessing audio content on social media. We will ask you to perform a series of tasks then answer questions that can help to improve the app as a whole.

Confirmation of Requirements

Participant, please complete the following by circling Yes/No for each question.

I have read the plain language Statement.	Yes	No
I understand the information provided.	Yes	No
I understand my information is not being recorded	Yes	No
I have had an opportunity to ask questions.	Yes	No

Confirmation of voluntary involvement

Participants, please circle Yes/No for the following question.

I understand I may withdraw at any time.	Yes	No

Signature

I have read and understood the information on this form. My questions and concerns have been answered by the researchers and I have a copy of this consent form. Therefore, I consent to take part in this survey.

Plain Language Statement - Chirp Audio Social Updates

Students: Kieran Flynn and Eoin O'Brien
Supervisor: Stephen Blott

Introduction

Chirp - Audio Social Updates is a social media platform that integrates the existing social media platform Twitter and the online storage platform Google Drive. Users will be allowed to create and access social media posts using our mobile application.

Legal Limitations

Note that when you participate in this research study, our questionnaire will only gather feedback on the experiences with the provided application. No personal data will be gathered from the application or the questionnaire and user identity will remain anonymous in the questionnaire and application. Any data garnered in regards to feedback will be deleted by the project investigators. The disposal of the questionnaire feedback will take place upon receival of our project grade. Participants have the right to withdraw from the testing and/or feedback process at any time.

Details of participation

Participation in this research study involves User Acceptance Testing. Users will be asked to perform tasks inside of our application. These users will then be asked to provide feedback on their experience with the application.

Tasks
1. Launch the application
2. Create a post in the Chirp application
3. Browse through the Chirp timeline & select a Twitter post you want to listen to.
4. Select an existing Twitter user or users to gather tweets from in the "Go Live" feature.
5. Select a hashtag for the tweets to filter the tweets & a time frame for gathering the tweets.
6. Select a Twitter post you want to listen to in the Go Live feature
7. Exit out of the post's audio & return to the home screen when ready.
8. Should help be required, please refer to the user guide or contact one of the project members

Potential Risks and Use Of Data

There are no potential risks to participants in this study. Data will not be recorded on any potential participants and all feedback sessions will be conducted anonymously.

Benefits to Participants

Participants receival little benefit from participation. They receive a mobile application for voluntary feedback and testing purposes.

Voluntary Involvement

The role of participants in this study is voluntary and each participant is free to withdraw from the testing and feedback process.
